History and Notes	<p>Caller reports she moved into a cottage in Florida a few months ago and her house is built on a platform. About once per month, she smells something that is getting in the house and then the top of her head starts to feel like it has a mild sunburn sensation and her hair starts to fall out. She saw maintenance spraying Roundup around the building and realized that must be what is causing her symptoms. She smells it after he sprays it, and the odor seeps into her house and gives her a headache. It was not a ready to use version but she doesn't know what kind of Roundup it was. MRPC discussed the product toxicity. The symptoms do not correlate with the expected response to the product.</p>
